Technical Features

For automatic forging;

4-axis design, flexible operation;

AC servo motor drive, great stability and high position repeat accuracy;

Automation stamping base;

Simplicity of operation .

Adaptation range

Single Machine forging feeding , The robot flexible installation;

Multiple Machine product transfer, different height of mold can be compatible and easy for mold change;

Suitable for many product share same stamping production line, quick programming and debugging

Affiliated equipments

Material Feeding Machine（Optional）

Picking and positioning machine（Necessary Equipment）

Transfer Machine（two machine tools on line, machine spacing greater than 1.5 M）

Automatic Spray Graphite Machine

技术参数 Specifications		
型号	Model	FY-B-S4G10H
轴数	Numbers of axis	4
最大工作半径	Max working radius	半径R1800mm
负载	Loading	10Kg
驱动方式	Driving mode	交流伺服AC servo
重复运动精度	Position repeat accuracy	± 0.20mm
各轴参数	Parameters of axis	Z: 300mm R: 210° A: 800mm B: 270°
工作效率	Work efficiency	Max: 12c/min
额定功率	Rated power	3.5KW
环境温度	Ambient temperature	0~50℃
安装方式	Installation method	地面安装 Floor mounted

Previous: Four Joint Robot-6KG

Next: 3/2D Walking Beam Type Punching Robot
