Product Description

Dongguan FITYOU automation Limited incorporated is a forging automation equipment & intelligent bearing manufacturer bearing cages & bearing rings manufacturer, The company continues to improve and improve the quality of the product, the company through and fully implement the ISO9001 international quality management system, and the whole process of management of product quality. The company pays attention to internal detail management, optimizes resources and information sharing through ERP and OA management system, and ensures customers to use the best industrial robot automation products.

10 kgs 4 axis swing arm forging robot for spear parts automatic forging

Porduct Features:

- 1,high end equipment for automatic forging and pressing of single machine and multi process
- 2,three axis single arm step beam mechanism with high running speed
- 3,Independent institutions, easy to install
- 4,servo drive, stable performance, improve operation precision
- 5,easy to operate, friendly interface, convenient for employees to learn
- Scope of application
- 1,The multi process forging of the single machine bed, the three axis motion of the manipulator, the manipulator installed in front of the machine tool.
- 2,The mechanical hand of the open punch press is arranged in the middle, and the mechanical hand of the closed punching machine is arranged laterally.
- 3,It is especially suitable for automatic forging of nut and bearing multi process products.
- 4,It is suitable for many kinds of products to share an automatic forging manipulator, which is quick in programming and easy to debug.

Applications:

.Bearing rings automatic manufacturing

Single arm walking beam forging robot

Service & Advantage

1. 100% quality guarantee

2. Various size for selection

3. Professional technical support

4. OEM&ODM are welcomed

5. Small order is acceptable

6. Service with heart and soul

7. Delivery on time

8. Flexible payment terms (L/C, T/T)

9. Best after -sales service
- 1, stable and trustable quality

2, advanced inspection system

3,free online technical service available

4,directly supply for every customer

5,OEM, ODM or sample orders are acceptable

6,QC system 100% inspected

About FITYOU

FITYOU automatic and intelligent bearing rings, cage manufacturer,continues to improve and improve the quality of the product, the company through and fully implement the ISO9001:2008 international quality management system, and the whole process of management of product quality. The company pays attention to internal detail management, optimizes resources and information sharing through ERP and OA management system, and ensures customers to use the best industrial robot automation products.

About FITyou:

Dongguan FITYOU Robot Automation Co.,Ltd was founded in April 2008. The company is committed to the development, manufacture and sale of industrial robot automation products. FITYOU brand industrial robot automation products are widely used in stamping, forging, welding, handling, palletizing, processing, spraying, assembling, testing and other automated industrial production, which is urgent for industrial enterprises to solve difficult employment and low efficiency.

The company's products have won dozens of national technical patents, including joint robot, arm robot, connecting rod manipulator and related technical patents. The R & D team of the company continues to research, test, improve the specific application of industrial robots in industrial enterprises, and provide customers with the overall solution of automated production. Meanwhile, the company can tailor industrial automation products for customers. We believe that the automatic production is the only way which must be passed to enhance the competitiveness of enterprises in industrial enterprises, we adhere to the "continuous innovation, technical skills continue to meet customer demand" for the purpose of industrial enterprises to provide the most suitable for the high performance, easy to operate the industrial robot automation products.

In order to serve customers faster, the company has established production and service bases in Chuzhou, Zhejiang, Shaoxing, Chongqing Bishan, Shandong and Qingdao in Anhui, providing a one-stop worry service for local customers.

Packing & Delivery

FAQ

Q:Is your company a trading one or a factory?

A:Factory (We produce, we sell), we supplied products directly

Q:Do you provide samples ? is it free or extra ?

A:Yes, we could offer the sample for free charge but do not pay the cost of freight.

Q:Is your company accept customized order?"

A:OEM and ODM are available. And we have our own professional R&D team servicing for you.

Q:I haven't found the type in your made in china .What should I do?"

A:It doesn't matter,we can customize the products according to your request and drawing.

Q:How long is your delivery time?
