Model:SHH5-4

Swing-arm manipulator features:

- . 4-axis control
- . powerful file and license manangement capacity
- . Constrol system can be updated through USB

4-axis press manipulator specifcations

Model	SHH5-4
Number of controlled axes	4
Maximum load capacity	5 kg
Repeat accuracy	0.05 mm
Maximum working radius	1250 mm
Lowest reclaiming position	940 mm
Maximum power entire machine	2300 w
Machine weight	300 kg
Z axis-lifting axis stroke	350 mm
R axis-swing axis stroke	+/- 135 degrees
A axis-front to back stroke	450 mm
B axis-rotating axis stroke	+/- 180 degrees
Maximum Z axis speed	1 m/s
Maximum R axis speed	300 degrees/s
Maximum A axis speed	1.3 m/s
Maximum B axis speed	580 degrees/s
